PRESIDENT'S MESSAGE (Cont'd)

Soon it will be time for the Annual Meeting and there will be many inportant things going on so be sure to plan to be there. We will have another school on judging, in addition to the election of new officers, and updating of the by-laws. Every vote is important, so come out and have your say in your organization in addition to a wonderful vacation for a very nominal fee.

In closing I would like to thank you all again for two of the most wonderful and rewarding years of my life. I will never forget any of you.

May the Good Lord look on all you love, tenderly, today.

- Rosalie Wylie

A MEMORIAL TO MRS. DORA McGEE and MR. TOM HUDSON

Down through the years there have been many fine people ingaged in the hybridization of Hibiscus and some of them are still hard at work. The ranks have been thinned by the death of some of these people and it was with a great deal of sadness that we recently learned of the passing of one of the pioneers, Mrs. Dora McGee.

Through her efforts many fine Hibiscus were brought to the people of Florida and other places where they found their way. She will also be remembered for her fine yellow Ixora that bears her name and is still very popular.

Do not think of her as gone away from us but rather that she went to that beautiful corner of Heaven where she will find Alex Barthle and Norman Reasoner and the others waiting for her to come and join with them.

One of the most familiar sights at any Hibiscus show or meeting was a wonderful man who stood in the yard selling Hibiscus. On May 29, 1963 Tom Hudson passed away. He will be sorely missed by all of those who knew him and loved him.

Through the years Tom worked with Hibiscus and sure it is that nearly everyone who has some plants in their yard have one that Tom hybridized. He will also be missed by those of us who were not privileged to know him.

Most certainly he has gone to some little corner of Heaven where he will meet some of our dear friends who have left us. Let us all extend our deepest sympathies to those who he left behind. And think of him as taking a leave of absence to plant Hibiscus in Heaven.
